(company address)

Hereby certify that the building has been constructed in accordance with Fairfield City Council's 'Building in Saline Environments Policy' adopted by Council December 2004.

The building has been provided with the following: (please tick where applicable)

- A high impact damp proof membrane was laid under the slab (as per Clause 3.2.2.6 of the BCA).
- Provided a Class 32 MPa(N32) concrete was used.
- Damp proof course consists of polyethylene or polyethylene coated metal and be correctly placed (NSW BCA 3.3.4.0 & AS 3700, AS 4773).
- Exposure class masonry units were used below the damp proof course level (Clause 3.1.1 of the BCA & AS 3700, AS 4773).
- Appropriate mortar (M4) and mixing ratio was used with the exposure class masonry units; (Clause 3.3.1 of the BCA & AS 3700, AS 4773).
