I, _____
(print name) (licence number if applicable) (owner builders permit)

of _____
(company name)

_____ (company address)

Hereby certify that :

- The monolithic concrete slab has been thoroughly compacted to ensure maximum density and strength to eliminate all voids in accordance with BCA - Part 3.2 and 3.13 Housing Provisions Ref. AS 2870 - 1996 and AS 3660.1 - 2000.
- The slab has been designed and constructed so that any cracks passing through the slab or footing do not exceed 1mm in width through the depth of the slab.
- Furthermore, all interfaces between the penetrations and slab or footing have been provided with a termite barrier system integrated with the slab.
