I encourage you to head down to your library and see what awaits you.

Fairfield City Open Libraries offer something for everyone, making it a great place, whether you're visiting alone, with friends or family. There are a variety of fun and entertaining workshops and activities to suit all ages and interests across the various libraries within Fairfield City.

Be sure to check out our June to August 2025 What's On Booklet for Fairfield City Open Libraries and start marking the events in your diary that interest you.

Our libraries play a vital role in our community, offering opportunities for young people to learn and grow for a bright future, promoting life-long learning and digital literacy for seniors, as well as providing free fun activities for all ages. They are vibrant community hubs where residents can meet friends, play, study and learn or read.

Council Minutes

Oral Histories

Fairfield City Library Service has been active in collecting Oral Histories of its residents since 2000. There are now over 250 recordings and this number is still growing. Interviews have been conducted with community members from many different backgrounds including Assyrian, Lao, Italian, Polish, Spanish, Vietnamese. There are also interviews with early pioneers and long term Fairfield families, local Elders, war veterans, police officers, Mayors, Councillors and members of parliament.

AMPLIFY FAIRFIELD'S ORAL HISTORIES

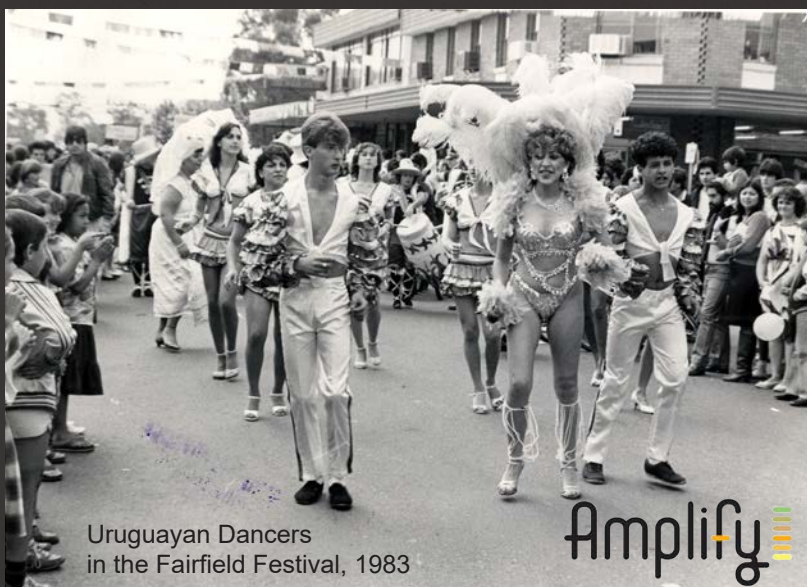

Digital platform Amplify is home to hundreds of oral history recordings. A joint venture between The State Library of New South Wales, Fairfield City Open Libraries and other library institutions; Amplify is a tool that creates accurate transcripts with the help of volunteers.

Through Amplify, you can hear from some of Fairfield's locals retelling their memories of childhood, migration and employment in the early years. Learn about the city's trials and tribulations as well as times of happiness and prosperity, or discover how our places and communities have changed over time to become what they are today!

Correcting computer-generated transcripts is a community effort and you can help to improve the quality of each transcript hosted on Amplify by correcting just a single line or every single line in an entire audio recording – every bit counts!

For a quick instruction on how to transcribe these audio files, visit the [TUTORIAL](#) page on Amplify.
